The total quantity of foodgrains damaged and rendered unfit for human consumption will be known only after the salvaging operations of the remaining affected stocks is completed:

(c) The FCI has adopted the following measures for creation of additional storage/Warehousing capacity for storing the procured grain.

(i) Higher utilisation of covered capacity, both owned and hired.

(ii) Expediting own construction programme, FCI has already constructed 3.14 lacs tonnes capacity godowns between 1992-93 to 1994-95 and proposed to add another 1.43 lacs tonnes storage capacity during the current year 1995-96.

(iii) Building of Cap complexes for storing of wheat in the consuming states.

(iv) Hiring of available storage capacity from CWC, SWC, State Govt. agencies and private parties.

During the last 3 years the storage space available with the FCI and the Stock position is given below:—

(Fig. in Million Tonnes)

As on	Storage space	Stocks	%Utili-sation
1	2	3	4
31.3.93	19.46	12.04	62%
31.3.94	23.66	18.94	80%
31.3.95	27.40	20.96	77%
1.10.95	27.92	19.36	69%

Between 31.3.93 and 1.10.95 additional 8.46 million tonnes of storage capacity has been arranged by FCI.

Cases of Export of Spurious Material by Traders

50. SHRI JAGMOHAN: Will the Minister of COMMERCE be pleased to state:

(a) whether a number of cases have come to the notice of Government in which some traders are misusing the 'Moscow Conduit' to export spurious materials or junk and then secure huge amounts of foreign exchange; and
